

CSWC Operational Period Summary

1800 June 07 2014 to 0600 June 08 2014

Cal OES Headquarters – Touchdown (Cal OES Photograph)

Cal OES
GOVERNOR'S OFFICE
OF EMERGENCY SERVICES

SITUATION SUMMARY

Valley Incident, Vegetation Fire, Mariposa County

- State Responsibility Area (SRA) fire burning near the Hunter Valley area of Mariposa County. Per ICS 209 dated June 8, 2014 at 0747 hours, Cal OES LDO and Cal OES FDO:
- Size: 90 acres, 80% contained

Bogart Incident, Vegetation Fire, Riverside County (Final)

- State Responsibility Area (SRA) fire burning in the Cherry Valley community of Riverside County.
- Size: 31 acres, 100% contained

SITUATION SUMMARY

Cal EOC Incident – 2014 Drought

- SOC / Inland REOC remains activated in support of 2014 Drought

Major Construction U.S. Highway 50, Sacramento, Sacramento County

- Major construction began April 22, 2014 on a section of U.S. Highway 50 in Sacramento between 18th and 24th Streets.
- Westbound Phase 2 construction began June 6
- Westbound Phase 2 will still take 15 days to complete
- Please see “Fix 50” slides for additional information, including alternate routes.

Significant Weather

- A Red Flag Warning now in effect until 1100 hours Monday for areas of Butte, Shasta, Tehama, Butte, Shasta, Tehama, Plumas, Lassen (Lassen N.P.)
- A Red Flag Warning remains in effect until 1700 hours Monday afternoon for portions of Butte, Colusa, Glenn, Lake, Nevada, Shasta, Sutter, Tehama and Yuba Counties.
- An Excessive Heat Warning remains in effect from 1100 hours to 2100 hours Monday evening 06/09/14 for portions of Inyo and San Bernardino Counties below 4000 feet.

WEATHER

WEATHER SYNOPSIS BY REGION:

NORTHERN CALIFORNIA AND CENTRAL COASTAL AREAS:

Eureka Weather:

High pressure over the western United States will maintain hot and dry weather through early next week. A disturbance will bring the potential for thunderstorms across interior areas on Monday. Then temperatures will fall to near normal later next week as a trough dominates the upper level flow.

San Francisco Weather:

Very warm and dry weather is forecast to continue for inland areas through Monday. Areas close to the ocean will remain relatively cool. A cooling trend is forecast for all areas from Tuesday through Thursday.

CENTRAL CALIFORNIA AND SOUTHERN SAN JOAQUIN VALLEY

Sacramento Weather:

Hot weather will continue the next few days with cooling expected by mid-week. Dry conditions along with periods of locally breezy north winds will bring critical fire danger. A slight chance of late day thunderstorms will be possible along the Coastal Range on Monday.

Hanford Weather:

Much warmer temperatures are expected over the region through Monday as high pressure builds along the west coast. A gradual cooling trend is expected Tuesday through the remainder of the week as an onshore flow pattern will prevail.

WEATHER SYNOPSIS BY REGION: (Cont.)

SOUTHERN CALIFORNIA:

Los Angeles Weather:

High pressure will bring warmer weather to the region today with well above normal temperatures for inland areas today and Monday. A cooling trend is expected Tuesday and Wednesday as a weak upper level low pressure system moves through the region. Near normal temperatures are expected for the end of the week with some warming possible next weekend.

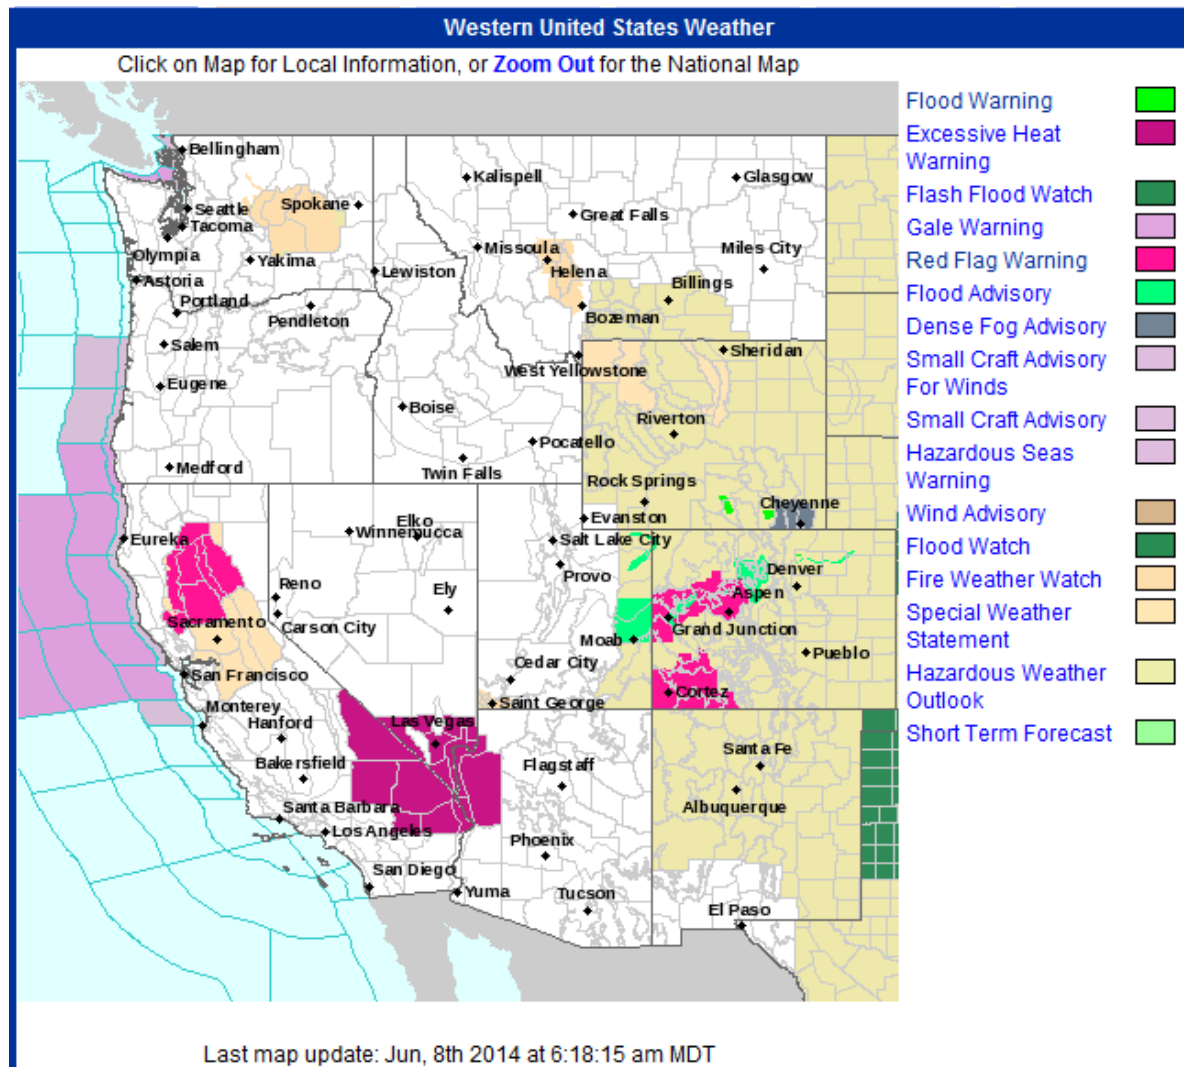

Extreme Southwestern California Including Orange, San Diego, Western Riverside and Southwestern San Bernardino Counties:

High pressure to the south will bring inland warming and a shallower marine layer through Monday. For Tuesday through next weekend a weak low pressure system near the west coast will bring cooling to near seasonal levels with areas of night and morning low clouds and fog. Onshore flow will bring gusty west winds to the mountains and deserts each late afternoon through late evening stronger for Tuesday into next weekend.

Southeast California Weather:

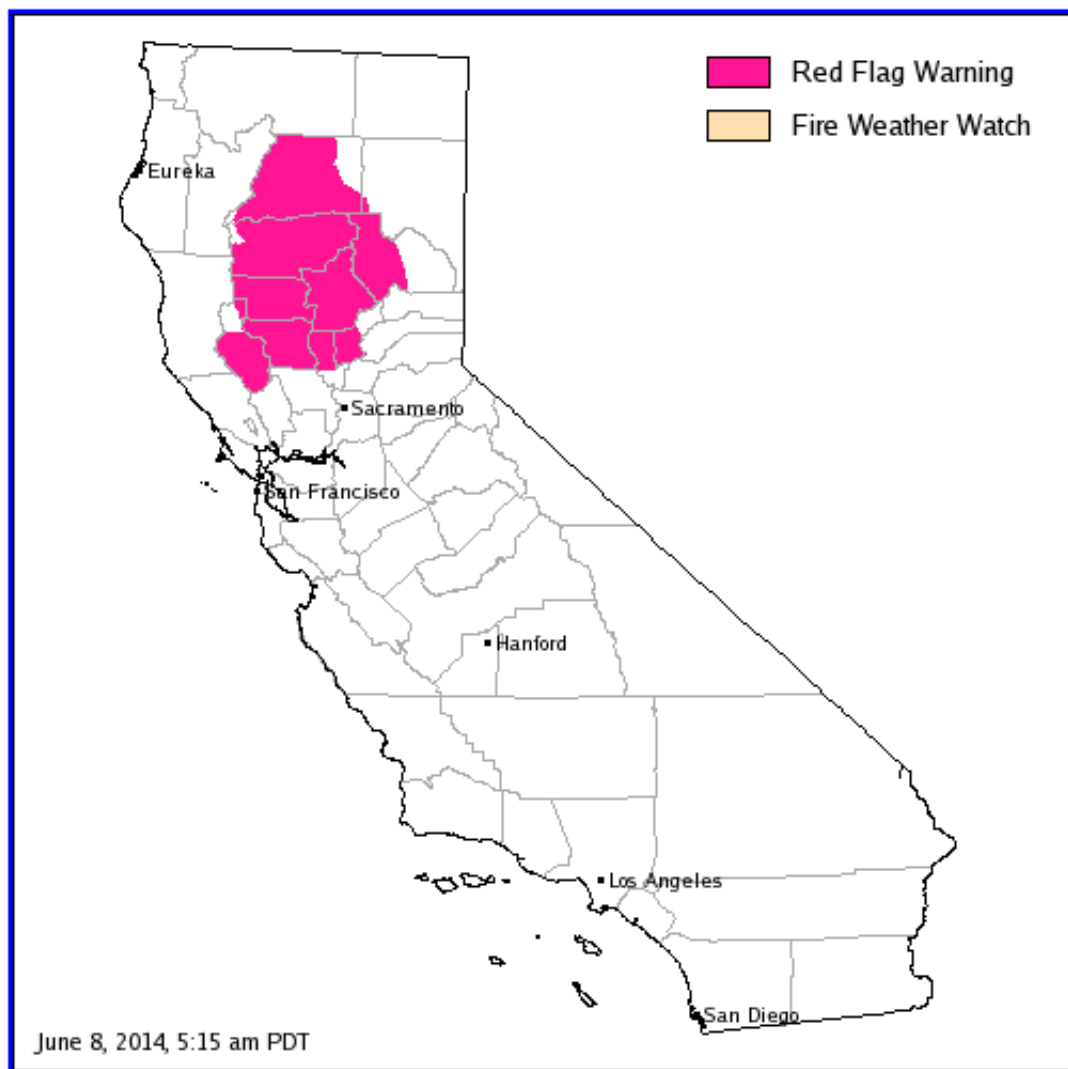

Hot and dry conditions are expected through much of the week. The hottest day will be Monday but temperatures will remain above the seasonal norms for the entire week. Winds should favor typical diurnal trends each day through Monday with typical afternoon gusts. There will be some cumulus development over the higher terrain each afternoon with the most significant development expected on Tuesday.

FIRE WEATHER

Legend

Fuel Dryness

	Moist - Little or no risk for large fires.
	Dry - Low risk of large fires in the absence of a "High Risk" event.
	Very dry - Low/Moderate risk of large fires in the absence of a "High Risk" event.
	Data Unavailable.

High Risk Events

Wind

Predictive Service Area	Fri Jun 6	Sat Jun 7	Sun Jun 8	Mon Jun 9	Tue Jun 10	Wed Jun 11	Thu Jun 12	Fri Jun 13
NC01 - North Coast								
NC02 - Mid Coast								
NC03A - Bay Area-Marine								
NC03B - Diablo/Santa Cruz Mtns								
NC04 - Northwestern Mtns								
NC05 - Sacramento Valley			W					
NC06 - Northeast CA								
NC07 - Northern Sierra								
NC08 - East Side								

Fuels/Fire Potential

Most PSA's have quite dry fuels, although the live fuel component in many mid and higher elevation areas is helping keep fire spread comparatively slow. This is changing fairly rapidly in some of those areas, however, with the hot, dry weather pattern of late.

The gusty northerly winds and low RH/poor overnight recovery will bring "High Risk" to the Sacramento Valley and surrounding foothills Sunday considering the dry and cured fuels there. The daily afternoon/evening lightning in the general Lake Tahoe area is too isolated and over high enough country to be of concern for "High Risk" designation.

“Fix 50” Information

Major Construction U.S. Highway 50, Sacramento, Sacramento County

- Major construction is scheduled on a section of U.S. Highway 50 in Sacramento between 18th and 24th Streets.

2014 Project Dates

Westbound Highway 50: May 27 – June 25

Phase 1: May 27 - Jun 10

- Westbound Phase 1 was completed 5 days early on Thursday, June 5.

Phase 2: June 6 - June 25

- 2-3 outside lanes will be closed. Inside 3 lanes will remain open.
- Ramp closures:
 - Connector ramp from westbound Business 80 (Capitol City Freeway) to US-50 West. Hornet Drive near Sacramento State is the alternate route.
 - Reduced lanes on connector ramp from Hwy 99 North to US-50 West (will merge down to one lane).
 - 16th Street off-ramp.

“Fix 50” Information (Cont.)

Major Construction U.S. Highway 50, Sacramento, Sacramento County

Alternate Routes:

During work in the WESTBOUND direction (May 27 – June 25):

If traveling from Rancho Cordova/Folsom to Downtown Sacramento:

- Use US-50 West to Business-80 North to “N” or “H” Street off-ramps
- Do not stay on US-50 West after Business-80 interchange

If traveling from Elk Grove/Galt to Downtown Sacramento:

- Use I-5 North to “J” Street off ramp
- Do not take Freeway-99 North to US-50 Westbound

If traveling from Rancho Cordova/Folsom to Natomas/Davis:

- Use US-50 West to Business-80 North to Watt Ave North, to I-80 West.
- Do not use US-50 West to Davis or US-50 West to I-5 North to Natomas.

If traveling on Business 80 West during Phase 2 (Closed connector ramp from Business-80 West to US-50 West):

- Get on US 50-E and use Hornet Drive (Howe/Power Inn exit) to turn around onto US-50 West
- For WB Business 80 to downtown, use Highway 160

***Motorists traveling to the Lake Tahoe area can avoid the project area congestion by taking I-80 E

CAL OES ACTIVATIONS

Cal EOC Incident – 2014 Drought

- The SOC is activated at Level 2 in support of the Drought State of Emergency from 0800-1700 hours daily.
- The Inland REOC is activated at Level 2 from 0800-1700 Monday through Friday or as needed.
- The Southern REOC is activated at Level 1.
- The Santa Barbara County OA EOC is activated at Level 2 to be handled by the duty officer for the purpose of monitoring activities and gaining situational awareness. The operational period is 0800-1700 hours.

Cal EOC Incident – 2014 Drought

Situational Summary

On January 17, 2014 Governor Edmund G. Brown proclaimed a State of Emergency and directed state officials to take all necessary actions to prepare for drought conditions. The State Operation Center (SOC) is activated to implement objectives in support of the Governor's priorities. The lack of winter rain and snowfall has resulted in extremely dry conditions in many parts of the State. Reservoir levels are down significantly from where they should be on average for this time of year. If conditions continue without substantial rainfall, severe impacts to municipal water supplies, agriculture (plants and livestock) and firefighting capabilities are likely in store for the State over the next few months. Negative economic impacts will also result.

****As our state's rainy season comes to an end, it is highly unlikely that precipitation totals will increase significantly. This winter's below average rain and snowfall worsens conditions in this third straight dry year.***

The drought could result in severe impacts to the municipal water supplies, wells, agriculture (plants and livestock) and firefighting capabilities for several months. The SOC continues to be activated to monitor the situation statewide, and support regional and local operational areas.

Situational Summary (Cont.)

- The Taskforce continues to meet regularly to take actions that conserve water and coordinate state response to the drought.
- The final manual snowpack survey of the season was conducted on Thursday (May 1) and showed California snowpack at 18% of normal.
- DWR has announced that water essential for health and safety will be delivered through the state water project. The current State Water Project Allocation is 5%.
- Cal OES continues to gather drought-related costs from state agencies and local governments.

CAL OES MISSIONS

Ongoing Cal OES Missions

- **2014-LAW-2679** The 95th CST will provide Joint Hazard Assessment Team support in support of SFPD's Special Operations Bomb Squad at the 2014 Bay to Breakers Marathon. Radiation detection teams will survey background levels of radiation as part of the overall security plan. The 95th deployment will include advanced planning and pre-positioning prior to race day.
- **2014-LAW-2483** The 95th CST will provide area monitoring, secure communications, and WMD expertise for the IRL Racing Event at Sonoma Raceway August 22-24, 2014. They will assist with advanced planning and be pre-positioned prior to the start of the event.
- **2014-LAW-2481** The 95th CST will provide area monitoring, secure communications, and WMD expertise for the NHRA Racing Event at Sonoma Raceway July 25-27, 2014. They will assist with advanced planning and be pre-positioned prior to the start of the event.
- **2014-LAW-2478** The 95th CST will provide area monitoring, secure communications, and WMD expertise for the NASCAR Racing Event at Sonoma Raceway June 20-22. They will assist with advanced planning and be pre-positioned prior to the start of the event.

CAL OES MISSIONS

Ongoing Cal OES Missions (Cont.)

- **2014-LAW-2798** El Dorado County is planning an in-county SAR exercise on 07/15/14 for their volunteers and have requested the assistance of the California National Guard (CNG) aviation assets to support the exercise. Elements of the exercise will include an orientation to the various CNG air assets (H-72, H60 and CH47), hoist training, patient packaging for air evacuation and ground team insertion and extraction training.

Mission:

We protect lives and property, build capabilities, and support our communities for a resilient California.

We achieve our mission by serving the public through effective collaboration in preparing for, protecting against, responding to, recovering from, and mitigating the impacts of all hazards and threats.
